

USER GUIDE

POWER ON:

Press and hold the on/off button for 3 seconds until the blue LED flashes and you hear “Power On.”

POWER OFF:

Press and hold the on/off button for 3 seconds till Red LED flashes and you hear “Power Off.” Headphones will automatically power off if there is no music input for 3 minutes.

LOW BATTERY:

Recharge the headset when you hear “Low Battery” every 2 minutes, or the red light flashes every 5 seconds.

FIRST TIME PAIRING:

The Bluetooth® headset will enter pairing mode automatically after the power is switched on. The red & blue LED light will flash alternatively. Turn on the Bluetooth® function on your music device and pair with the headset. Pairing is successful when you hear “Connected” and the blue LED light flashes every 5 seconds.

RE-PAIRING:

For devices that have already been paired, the headset will automatically reconnect when the power is turned on, or you can select “Vic Firth Headphones” on the device to re-connect.

WIRED USAGE:

A 3.5mm line-in cable is provided to enable optional use as wired headphones. Simply plug the line-in cable into the line-in jack on the [left/right] earcup and plug into your desired device.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
- FCC ID:2A2KDVXHP0012

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
